OBJECTIVE

Hello, my name is Jaymin Patel. I am a Digital Designer // Product Designer. I am interested in creating (problem-solving) products to develop solutions that create value for companies. **I am looking for Freelance as a Digital Designer anywhere in the world.** I see this Freelance as an experience that would allow me to work with passionate and talented people. This is my portfolio link : www.jayminpatel.fr

WORK EXPERIENCE

From January 2021 to January 2022

DIGITAL DESIGNER

Ultranoir (PARIS, France)

Key Responsibilities & Duties

I worked as a digital designer at ULTRANOIR PARIS. During one year I worked with many clients on digital projects (Dyptique, Make Up For Ever, Messika, Dior, Voile d'Or, Groupe LVMH, Cloudy bay ...)

My aim main was to solve their problems by creating products :

- Design newsletters (For Dyptique)
- Work on UX & UI for many project
- Design dynamic website
- Design application

From June 2020 to January 2021

DIGITAL DESIGNER

Fantasy (NEW YORK, United-States)

Key Responsibilities & Duties

I worked as a Digital Designer at FANTASY NEW YORK one of greatest Design agency! During this time, I worked mostly for the client Wheels-Up on his Mobile Application and Website Redesign (All the UX process and after All the UI process)

From July 2019 to January 2020

DIGITAL DESIGNER

Landor (PARIS, France)

Key Responsibilities & Duties

I worked as a digital designer at LANDOR PARIS one of greatest branding agency! During this time, I worked with many clients on digital projects (Amaala, Oral-B, Gillette, Renault, Volvic ...)

My aim main was to solve their problems by creating products :

- Design application IOS/ANDROID
- Design dynamic website
- Coding landing pages
- Creating 3D elements for new experience on VR - AR

From January 2019 to July 2019

DIGITAL DESIGNER / PRODUCT OWNER

HKind (PARIS, France)

Key Responsibilities & Duties

I worked as a Digital designer / Product owner with Alice De Maximy CEO of Hkind, start up in medical initiatives.

My goal was to :

- Create a brand identity including graphic charter and logo's design
- Design the application and website
- Organize the filming and carry out the interviews
- Edit interviews videos and manage social networks of Hkind.

From June 2018 to December 2018

DIGITAL DESIGNER / FRONT-END DEVELOPER

Unilog content solution (BANGALORE, India)

Key Responsibilities & Duties

I did a 5 months internship at the company Unilog Content solution in India. I worked as a Designer UX / UI and Front Developer, on redesigning their software CIMM2 which is a CMS, sold by the company. I also responded to calls for tender with a specialized Unilog team and then participated in the design of B2B e-commerce websites.
