OBJECTIVE

Hello, my name is Jaymin Patel. I am a 4th year student at HETIC, Paris, studying UX/UI Design, web development and digital marketing. I am a junior designer. I am interested in creating (problem-solving) products to develop solutions that create value for companies. **I am looking for a 6-month internship from June to December 2020 as a design intern.** I see this internship as an experience that would allow me to work with passionate and talented people.

WORK EXPERIENCE

From July 2019 to January 2020

DIGITAL DESIGNER

Landor (PARIS, France)

Key Responsibilities & Duties

I worked as a digital designer at LANDOR PARIS one of greatest branding agency! During my internship I worked with many clients on digital projects (Amaala, Oral-B, Gillette, Renault, Volvic ...)

My aim main was to solve their problems by creating products :

- Design application IOS/ANDROID
- Design dynamic website
- Coding landing pages
- Creating 3D elements for new experience on VR - AR

From January 2019 to July 2019

DIGITAL DESIGNER / PRODUCT OWNER

HKind (PARIS, France)

Key Responsibilities & Duties

I worked as a Digital designer / Product owner with Alice De Maximy CEO of Hkind, start up in medical initiatives.

My goal was to :

- Create a brand identity including graphic charter and logo's design
- Design the application and website
- Organize the filming and carry out the interviews
- Edit interviews videos and manage social networks of Hkind.

From June 2018 to December 2018

DIGITAL DESIGNER / FRONT-END DEVELOPER

Unilog content solution (BANGALORE, India)

Key Responsibilities & Duties

I did a 5 months internship at the company Unilog Content solution in India. I worked as a Designer UX / UI and Front Developer, on redesigning their software CIMM2 which is a CMS, sold by the company. I also responded to calls for tender with a specialized Unilog team and then participated in the design of B2B e-commerce websites.

From June 2017 to January 2018

FREELANCE DIGITAL DESIGNER / DEVELOPER / VIDEO EDITOR

Les Films Pelléas (PARIS, France)

Key Responsibilities & Duties

I worked as a Freelance digital designer for the film 'Maya' by Mia Hansen Love. My mission was to create all the web visuals of a scene (redesign websites and search engine). Once the mockups were designed, I developed the mockups in HTML / CSS.

From January 2017 to May 2017

FREELANCE DIGITAL DESIGNER / FRONT-END DEVELOPER

Curry street

Key Responsibilities & Duties

I worked as a freelance Digital designer. My goal was to create the design UX and UI of their catering website. Once the mockups were validated I also developed the site in HTML / CSS / JS.
